

# The Village of Glenview Report

[glenview.il.us](http://glenview.il.us)

October 2019

## Multi-use path going in on Shermer Road

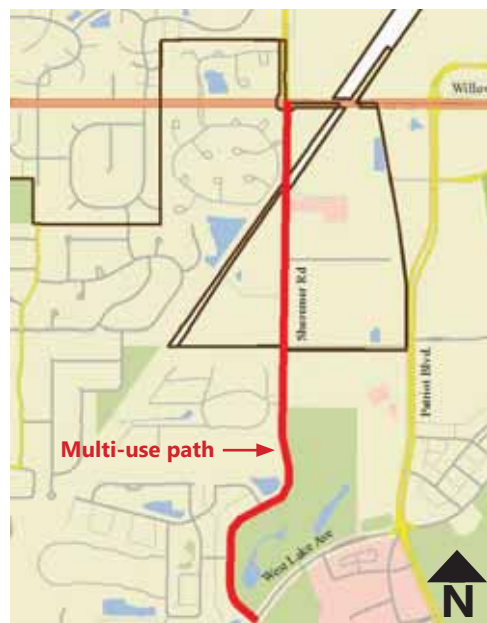

Construction of the 2-mile Shermer Road multi-use path is under way and anticipated to be completed by November.

This path, between West Lake Avenue and Willow Road, will accommodate both pedestrians and cyclists. It is an extension of the existing Centennial Trail on West Lake Avenue, and will connect to the Techny Trail regional system; the trail system along Willow Road in Northbrook; several Metra stations; The Glen Town Center; and downtown districts.

The 8- to 10-foot-wide multi-use path is being constructed along the east side of Shermer Road and under the Union Pacific Railroad overpass.

The Village was successful in securing federal funds for the engineering design and construction through the Illinois Transportation Enhancement Program. The grant funding will pay for 80 percent, or approximately \$1 million dollars, of the total cost. The remaining 20 percent of the total cost is being shared by the Village of Glenview and the Village of Northbrook.

For more information, go online to: [glenview.il.us/Pages/Shermer\\_path.aspx](http://glenview.il.us/Pages/Shermer_path.aspx)

## Grant to fund Techny path rehabilitation

The Village was recently awarded a \$200,000 grant from the Illinois Department of Natural Resources for the rehabilitation of the Techny Basin Path. The project was one of 16 selected to receive funding.

The reconstruction of the path around the basin will be included in the Village's 2020 Capital Improvement Plan.

The Illinois Bicycle Path Grant Program was created in 1990 to financially assist eligible units of government acquire, construct, and rehabilitate public, non-motorized bicycle paths and directly related support facilities. Grants are available to any local government

A view of the Techny Basin after a few days of rain (left) from the bike path (right).

agency having statutory authority to acquire and develop land for public bicycle path purposes.

The paved bike trail goes around the

65-acre Techny Basin, which exists to temporarily store stormwater overflowing from the West Fork of the North Branch of the Chicago River.

### HAPPY HALLOWEEN

Halloween is Thursday, October 31.  
Trick or Treat hours and safety tips are on page 5.

## Reduce idling in school zones

With kids back in school, drivers should consider reducing unnecessary vehicle idling. Children and the elderly are more vulnerable to pollutants in the air, and can suffer

more severely from significant exposure to toxins. Unfortunately, school loading and drop-off zones are one of the most common areas contributing to pollution through car carbon emissions. Children breathe 50 percent more air per pound than adults, and asthma – a possible effect of exposure to lots of air pollution – is one of the leading causes of prolonged absences from school. If possible, try to carpool, or bike or walk to school.

All drivers in our community can reduce air pollutants by turning off their vehicles instead of letting them idle. Collectively, we can reduce idling at schools, our workplaces, in our driveways and at gates awaiting train passings. In doing so, we can reduce contaminated air by tens of thousands of pounds, reduce our fuel consumption (and costs) and make the air healthier for everyone to breathe.

## Donate unwanted clothing

Did you know that only 15 percent of the clothing we no longer want is donated for reuse? The rest ends up in landfills.

There is no reason to place clothing or any fabric items in your garbage cart. But you should NEVER place textiles in the curbside cart. Instead, reuse and recycling is the best option for clothing, regardless of condition. Even clothing with stains and broken zippers can be donated. Many organizations will reuse the clothing in good condition and recycle the clothing that can't be reused.

When you find yourself cleaning out the clothes that don't fit or went out of fashion, put them in a box and take them to your local charity or textile collection center. Here are a few operating in Illinois:

- Goodwill
- Saint Vincent DePaul
- Salvation Army
- USAgain

Cotton is an amazing material that can be recycled many times, and when you consider growing it uses the most pesticides of any crop, recycling it prevents toxins from entering the environment.

Here are the October notifications of major speed radar “hot spots” and stop sign/traffic light enforcement. At these locations, chosen in part based on resident requests for selective enforcement, Glenview police officers this month will monitor the areas for recurring traffic violations on an as-available basis. The goal is to promote safe driving in Glenview. Selective enforcement request forms can be found on our website at [glenview.il.us](http://glenview.il.us) in the “How do I?” drop-down box.

## Radar 'hot spots'

LaFontaine Drive from Robin Lane to Joy Lane • Greenfield Drive from Shermer Road to Fernwood Lane • Kings Lane • Magnolia Street

## Stop sign/traffic enforcement

Chestnut Avenue/Patriot Boulevard • Sherwood Road/Beech Drive • Linneman Street/Huber Lane • Maple Street/Lilac Avenue

## This month in history

### 90 years ago – October 20, 1929

Curtiss Reynolds Airfield was dedicated, later to be bought by the Navy as a pilot training facility known as Naval Air Station Glenview.

### 60 years ago – October 4, 1954

The Village Board of Trustees amended the Municipal Code to require that all portions of a street must be improved to the same quality of paving of any given segment.

### 35 years ago – October 2, 1984

The Village Board of Trustees voted to sell two single-family homes – the Drakley house at 1253 Shermer Road and the Synnestvedt house at 1255 Shermer Road – located on land where a new Public Works facility was to be built.

### 20 years ago – October 7, 1999

The non-sectarian Navy chapel, built by German prisoners of war in 1944 at what was then the Glenview Naval Air Station, was put on dollies, girded with steel beams and towed a half mile to Chestnut Avenue, providing a scenic gateway to Kimball Hill's 168-home Chapel Crossing at The Glen subdivision.

# Overnight flight program to start

The Interim Fly Quiet Runway Rotation Plan is scheduled to begin on Sunday, November 3. The program seeks to spread the impacts of nighttime flights at O'Hare International Airport from 10 p.m. to 7 a.m.

Each week, pilots and airlines will voluntarily use designated nighttime preferential runways and flight tracks developed by the Chicago Department of Aviation in coordination with the O'Hare Noise Compatibility Commission (ONCC), airlines and air traffic controllers.

The interim plan will have nighttime aircraft arriving or departing to and from the northeast quadrant every other week from November 2019 to May 2020. Following scheduled runway construction, the program would resume from September 2020 to January 2021. This will likely bring more planes closer to or over Glenview.

The weekly runway schedule is available online at: [oharenoise.org/sitemedia/documents/noise\\_mitigation/FlyQuietCommittee/IFQ\\_Schedule\\_IndividualWeeks\\_090619.pdf](http://oharenoise.org/sitemedia/documents/noise_mitigation/FlyQuietCommittee/IFQ_Schedule_IndividualWeeks_090619.pdf). Note that flights over Glenview land and take off on runway 4L/22R.

The Village of Glenview in February 2019 approved a resolution opposing the Interim Fly Quiet plan.

Noise complaints about O'Hare flights can be submitted by:

- calling (800) 435-9560
- filling out a form to the City of Chicago's 311 system online at: [311.chicago.gov/article/Aircraft-noise-complaints](http://311.chicago.gov/article/Aircraft-noise-complaints)
- submitting public comments during ONCC meetings. Check the schedule online at: [oharenoise.org/about-oncc/oncc-meetings/month.calendar/2019/09/10/-](http://oharenoise.org/about-oncc/oncc-meetings/month.calendar/2019/09/10/-)
- contacting state and federal legislators

## Techny path *from page 1*

When the basin is dry, bike riders and walkers can see restored tallgrass prairie vegetation, wildlife and wetland birds, such as egrets, hawks and owls. When full, the path circles what seems like a small lake.

The trail connects to the Techny Trail that runs south to downtown Glenview and north to Northbrook.

## From the Village President

In a profession as hazardous and adrenaline-producing as firefighting, Ralph Ensign was the epitome of unflappable.

That probably shouldn't be surprising, given that he grew up in the fire service – his father retired as Northfield's assistant fire chief in 1979. Now after 43 years with four fire departments, it's Ralph's turn to retire. He spent six years as Glenview's Deputy Fire Chief and four years as Chief, following stints with Northfield, Winnetka and Highland Park.

Ralph leaves his legacy in two of Glenview's five fire stations. He was instrumental in the design and construction of Fire Station 6, which was moved from Glenview Road in the downtown area to 1215 Waukegan Road to make way for construction of Midtown Square. And he had a large role in planning the replacement for Fire Station 8 at 1901 Landwehr Road, construction for which should begin this year.

Ralph was not only a strong asset to Glenview, he made his mark regionally. He was a founding member and assisted in the development of the Mutual Aid Box Alarm System (MABAS) Division III Hazardous Materials Response Team. MABAS Division III is a partnership of 19 north suburban communities to provide personnel, equipment and resources to one another when needed.

Ralph's retirement follows the departure in June of Deputy Fire Chief Paul Klicker, who served more than 24 years with the Glenview Fire Department, and now is the Fire Chief of Spring Grove, Ill.

The transition in the Fire Department's leadership was initially handled by Acting Fire Chief Steve Precht, and following an extensive recruitment process is now in the hands of two new deputy fire chiefs: Tony DeRose and Mike Rutkowski.

Tony will also be serving as Interim Fire Chief. He comes to the Village with 19 years of experience in the fire service, previously serving as Battalion Chief for the Countryside Fire Protection District. His permanent appointment to the position of Fire Chief will be evaluated in six to 12 months.

Mike comes to the Village with 20 years of experience in the fire service, previously serving as Battalion Chief for the Grayslake Fire Protection District.

This change in leadership represents an opportunity for new beginnings. As we move forward, we will continue our efforts to make the Fire Department even better.

# 2020 road work list compiled

The Village Board of Trustees has been dedicated to maintaining and improving Glenview's roads, sewers and other infrastructure. To that end, annually funding capital improvement projects is a high priority.

At this stage of the 2020 Village Budget review, the Board is looking at dedicating \$22.2 million to capital improvements next year, including:

- \$13.4 million for road reconstruction and related water and sanitary work, including a portion of Longvalley Road and Woodland Drive (see chart);
- \$3.06 million for road resurfacing, including many of the roads in the Heatherfield subdivision (the rest are programmed in 2021); Independence Avenue from Patriot Boulevard to Kittyhawk Lane and Saranac Lane in the Indian Ridge subdivision (see chart);
- \$3.17 million for stormwater related projects; and
- \$2.5 million for design, streetscape, trails and other special projects.

Have a comment on the condition of your road or other Village infrastructure? As part of the Village's budget process, input from the public on the 2020-2024 Capital Improvement Program (CIP) will be accepted in these ways:

- Attend an informal open house from 5:30 to 7 p.m. Wednesday, October 9, at Village Hall, 2500 East Lake Avenue.
- Call the Community Development Department directly at (847) 904-4340.
- Send email to: [capitalprojects@glenview.il.us](mailto:capitalprojects@glenview.il.us)

These proposed projects will be evaluated and finalized by the Village Board during the budget process based on available funding.

Tentative 2020 road resurfacing/MARS program = 5.08 miles		
Street	From	To
Pinehurst Drive	Roosevelt Avenue	north end

Russet Way	Crestwood Drive	Carousel Drive

## Dispose of unwanted drugs safely

Rid your home of unused or expired prescription drugs, including controlled substances, by bringing them for proper disposal on National Prescription Drug Take-Back Day:

**10 a.m. to 2 p.m. Saturday, October 26**  
**Glenview Municipal Center parking lot**  
**2500 East Lake Avenue**

This initiative is sponsored by the Glenview Police Department in conjunction with the U.S. Department of Justice and Drug Enforcement Agency.

Dropping off unwanted medications rather than flushing them down the toilet or throwing them in the trash can prevent pill abuse, theft, accidental poisoning and overdosing.

## Officers greet students on High-Five Fridays

The slapping of an upraised hand by two people, known as a high five, has become a way to celebrate everything from personal accomplishments to game-winning plays.

So when some Glenview students get a slap when they arrive at their school on a given Friday, the greeting is a welcome one.

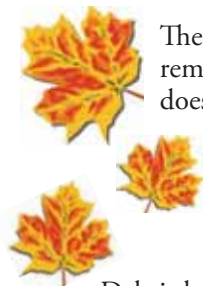

From the start of the school year through December 13, students arriving at 13 public and private schools in Glenview on Fridays have gotten or will get high-fives from Glenview

police officers for a positive start to their day.

The High Five Friday program, which has been embraced by many police departments across the country, aims to foster positive interactions between officers and kids. It's seen as a way to start building relationships with young kids and as a confidence booster for the students and their parents.

"Our goal is to break down barriers," said Glenview Police Department Community Relations Officer Joel Detloff. "It's a great way to brighten the day."

## Keep leaves off street and out of drain inlets

The Village of Glenview reminds residents that it does NOT offer a free leaf collection program. So please do NOT rake or blow leaves into the street.

Debris left in the street may cause stormwater to back up if sewers and inlets get blocked or clogged. The Municipal Code prohibits any deposits on public streets that could obstruct drainage.

Leaves are considered landscape waste. Compost or bag them for pickup by Groot or your designated waste collection service. Groot requires either a seasonal yard waste subscription or a sticker on each 30-gallon biodegradable bag. Stickers are \$3.08 each and can be purchased at Village Hall, 2500 East Lake Avenue, or at:

- Jewel, 2775 Pfingsten Road; 2502 Waukegan Road; 1340 Patriot Boulevard
- Weiss Ace Hardware, 1560 Waukegan Road
- Heinen's, 1020 Waukegan Road

- Walgreens, 2871 Pfingsten Road; 1403 Waukegan Road; 3301 Greenwood Road; 2690 Golf Road
- Glenview Public Library, 1930 Glenview Road
- Online at [groot.com](http://groot.com)

Alternatively, consider shredding leaves with a mulching mower and leaving them to decompose. This way, they enhance the soil with valuable nutrients that feed the microbes and worms present in any healthy lawn and act like a weed control agent.

## HALLOWEEN IN GLEN-BOO

We want to keep Glenview's young ghouls and ghosts safe. Trick or Treat hours in Glenview are 3 to 7 p.m. Thursday, October 31, rain or shine. Keep these tips in mind as your kids haunt the neighborhoods:

- Accompany children (or send an older sibling) and make sure they don't enter anyone's home without your permission.
- Use makeup instead of a mask, so your child's view is not obscured.
- Map out a trick-or-treat route for your child to follow.
- Make sure kids cross streets only at corners – and look in all directions first. Remind them to use sidewalks or walk facing traffic so approaching cars can be seen. Caution against crossing the street between parked cars, where drivers can't see them.
- Warn children not to eat any goodies until you've had a chance to inspect them. When in doubt, throw it out.

# Save the date

## Kids Care Food Drive: Oct. 20-26

Students in Glenview School Districts 30 and 34 and Our Lady of Perpetual Help School will be collecting non-perishable food items to be donated to the Northfield Township Food Pantry during CHARACTER COUNTS! Week,

October 20-26. Drop boxes will be located in each school, and the community can contribute. Daily collection tallies will be listed by grade level online at [he.glenview34.org/cans](http://he.glenview34.org/cans).

Items of need include pancake mix and syrup, pasta sauce, juice, coffee, tea, kid's snacks, cookies, crackers, macaroni and cheese, peanut butter, jelly, chili, cereal, oatmeal, and paper products.

## State of the Village

Attend the "State of the Village," presented by Village President Jim Patterson, from 8 to 9:30 a.m. Thursday, November 7, at the Glenview Public Library, 1930 Glenview Road. The event is free, but an RSVP is appreciated at (847) 724-0202 or by email to [info@glenviewchamber.com](mailto:info@glenviewchamber.com).

Learn about Glenview's accomplishments in 2019 and the challenges and opportunities ahead. This free event is hosted by the Glenview Chamber of Commerce, the League of Women Voters of Glenview/Glencoe and the Glenview Values Project, and is sponsored by Wintrust Community Banks.

## Glenbrook CROP Hunger Walk

Help the fight to end hunger, both locally and globally, by participating in the 2019 Glenbrook CROP Hunger Walk, beginning at 1 p.m. Sunday, October 20. Funds raised go to support local needs, including the Northfield Township Food Pantry. For more information and to register, go online to: [crophungerwalk.org/glenbrook](http://crophungerwalk.org/glenbrook).

## Household hazardous waste

Homeowners in Northfield Township can safely dispose of unwanted household cleaning and maintenance products from 9 a.m. to 1 p.m. Saturday, October 26, through the Northfield Township program. Drop off antifreeze, cleaning products that are consumer commodities, charcoal lighter fluid, driveway sealer, drain cleaners, paint thinners and gasoline in approved/original containers, insecticides and herbicides at the Road District garage, 237 Melvin Drive, Northbrook. Go online to [northfieldtownship.com/hazardous-waste.html](http://northfieldtownship.com/hazardous-waste.html).

## Fire Prevention Week is Oct. 6-12

The Glenview Fire Department is teaming up with the National Fire Protection Association® (NFPA®) – the official sponsor of Fire Prevention Week for more than 90 years – to promote this year's Fire Prevention Week campaign, "Not Every Hero Wears a Cape. Plan and Practice Your Escape!"

The campaign works to educate everyone about the small but important actions they can take to keep themselves and those around them safe.

NFPA statistics show that in 2017 U.S. fire departments responded to 357,000 home structure fires. These fires caused 2,630 fire deaths and 10,600 fire injuries. On average, seven people died in a fire in a home per day during 2012 to 2016.

"These numbers show that home fires continue to pose a significant threat to safety," said Lorraine Carli, NFPA's vice president of Outreach and Advocacy. "In a typical home fire, you may have as little as one to two minutes to escape safely from the time the smoke alarm sounds. Escape planning and practice can help you make the most of the time you have, giving everyone enough time to get out."

While NFPA and the Glenview Fire Department are focusing on home fires, these messages apply to virtually any location.

"Situational awareness is a skill people need to use wherever they go," Glenview Interim Fire Chief Tony DeRose said. "No matter where you are, look for available exits. If the alarm system sounds, take it seriously and exit the building immediately."

For more information about Fire Prevention Week and home escape planning, go online to [fpw.org](http://fpw.org).

## Fire Department Open House

In celebration of Fire Prevention Week, the Glenview Fire Department invites the community to an Open House from 11 a.m. to 2 p.m. Saturday, October 19, at Fire Station 14, 2250 Patriot Boulevard.

Activities include a tour of the station, displays, demonstrations and refreshments.

Also during the month of October, firefighters visit with more than 6,000 Glenview public and private school students to educate them about planning and practicing how to get out of their home in case of a fire.

# Village Board in brief

The Village Board of Trustees met September 3 and 17. Here is a summary of actions taken:

◆ Authorized a professional services agreement with Mission Critical Partners of Port Matilda, Pa. to complete a public safety communications assessment and strategic plan for up to \$59,335.

◆ Amended a consulting agreement with Morrill & Fiedler to provide Illinois Government Relations representation for 2019 and 2020 for a total \$80,000, and amended the fiscal year 2019 budget to add \$20,000 to cover 2019 services.

◆ Authorized execution of a three-year contract extension with Tovar Snow

Professionals Inc. of East Dundee, Ill. for snow and ice removal services in The Glen Town Center for an estimated \$295,800.

◆ Authorized three-year contracts for snow and ice removal services with Snow Systems of Wheeling, Ill. for an estimated annual amount of \$219,000 and Langton Group of Woodstock, Ill. for an estimated annual amount of \$304,435.

◆ Approved a resolution in support of a request by Abt Electronics, 1000-1200 Milwaukee Avenue, for a Cook County 6b economic development

incentive to facilitate construction of 365,000-square-foot warehouse expansion, 27,000-square-foot recycling center, fuel station, electronic message sign, a service road and associated site improvements.

◆ Authorized a three-year contract with M.E. Simpson from January 1, 2020 to December 31, 2022 for hydrant flushing services for an estimated \$45,579.

*For more, go online to: [glenview.il.us/government/Pages/Board-of-Trustees-Meeting-Reports.aspx](http://glenview.il.us/government/Pages/Board-of-Trustees-Meeting-Reports.aspx)*

## Board acts on nicotine products, recreational marijuana

The Village Board of Trustees September 3 amended the Glenview Municipal Code regarding the sale and use of tobacco, electronic cigarettes and alternative nicotine products. Consistent with a new state law that took effect July 1, persons must be 21 or older to buy such products in Glenview, an increase from age 18. Possession of such products remains restricted locally for anyone under age 18.

The amended Code allows for the sale of tobacco, electronic cigarettes and other alternative nicotine products in business districts and as a conditional use in industrial districts. It restricts these tobacco and tobacco-related businesses from opening within 1,000 feet of any pre-existing school; college or university; day care center; playground; public library; or other building used for educational or recreational programs for persons under age 21.

The Glenview Plan Commission is scheduled October 10 to consider recommendations to the Village Board of Trustees prohibiting the sale of recreational cannabis and establishment of recreational cannabis businesses in Glenview. During an initial discussion September 3, the Village Board indicated it would prefer the Glenview Municipal Code be amended to prohibit the sale of recreational cannabis and ban recreational cannabis business establishments in Glenview, when recreational cannabis use and sales become legal in Illinois on January 1, 2020.

The state law will allow Illinois residents 21 years and older to use and possess recreational cannabis in private places and cannabis lounges, however, municipalities and counties can regulate the establishment or location of and signage by recreational cannabis dispensing businesses and lounges locally.

## Door replacements, repairs at downtown Metra station

After being subjected to 25 years of exposure to the elements, heavy traffic and vandalism, the west main entry door and east baggage room door at the downtown Metra station have deteriorated to the point where replacements are necessary.

Bear Construction Co. of Rolling Meadows was awarded the contract to replace the doors starting in November or December. Signs will be posted in advance of the work.

Under a maintenance and repair agree-

ment with the Village, Metra typically covers building project costs of more than \$3,000. For this project, Metra will reimburse the Village up to \$88,000.

Additionally, maintenance and repair work is expected to start this month at the downtown station to replace two sections (about 300 square feet) of concrete platform, power wash the entire platform and coat it with a sealer with a grip additive.

The Village Board awarded a \$76,800 contract to AGAE Contractors of Chicago for the work, which is expected to take about three weeks to complete. Again, signs will be posted in advance of the work.

## October public meetings

Village Board of Trustees	7:30 p.m. October 1, 15
Jim Patterson, President	
Plan Commission	7 p.m. October 10, 22
Steve Bucklin, Chair	
Appearance Commission	7 p.m. October 16, 30
Mark Demsky, Chair	
Natural Resources Commission	7 p.m. November 18
Henrietta Saunders, Chair	
Zoning Board of Appeals	7 p.m. October 7, 21
Ron Greco, Chair	

All meetings are held at Village Hall, 2500 East Lake Avenue, unless otherwise noted. These dates may be changed. Check meeting status at (847) 904-4370.

## This month on **GVTV**

GVTV airs on channel 17 or 6, depending on your neighborhood, or AT&T Universe channel 99 PEG, and carries Village Board and Plan Commission meetings live. Unless noted, coverage of these events will be aired after the event date.

- "Frontiers in Pain Care," presented by NorthShore University HealthSystem – 1 p.m. October 9 – Park Center
- "Pizza City USA" – 10:30 a.m. October 15 – North Shore Senior Center
- "Off the Shelf: Peter Nolan" – 2 p.m. October 17 – latest in the series of this original GVTV program hosted by Yvonne Wolf

Programming is subject to change without notice. Check the GVTV schedule at [glenview.il.us/government/Pages/GVTV.aspx](http://glenview.il.us/government/Pages/GVTV.aspx)
