

Glenview Building Commission

Meeting Minutes

July 6, 2006

Members Present: Commissioners Lackowski, McMillion, Means, Brown, and Acting Chairman Christopoulos.

Absent: None

Also Present: Building and Zoning Director Knudsen

The meeting began at 5:05 p.m. and a full quorum was declared. It was noted that until the appointment was made final, Commissioner Christopoulos would be acting chairman.

The members introduced themselves and gave a brief overview of their background and expertise.

Director Knudsen handed out material summarizing the portions of the codes that needed to be reviewed, and the proposed member that was designated to review specific chapters. Discussion ensued regarding the hand out material, and it was determined that, with minor changes, the designated chapter assignments were acceptable.

Acting Chairman Christopoulos stressed that although the Commission needed to be thorough in reviewing the codes, a lot of work had been put into their development by the International Code Council prior to the publication of the model codes, and that the commission should focus on areas of the code that will benefit Glenview in particular.

Commissioners Means and Lackowski expressed some concerns regarding the structural provisions of the model code, and it was determined that they would have an opportunity to review these provisions in detail as the commission progressed.

The commission discussed their future schedule of meetings, and Director Knudsen stated that he would send each members a proposed schedule of meeting dates to choose from in the next week. He also said that it was his hope that the commission could submit a recommendation to the Board of Trustees sometime in February of 2007.

The commission discussed other responsibilities for which they were responsible, such as the review of new construction materials, methods, and technology.

There being no further discussion, the meeting was adjourned at 6:50 p.m.
