June is

BURGLARY-PREVENTION MONTH

Crime is steadily increasing, and home burglaries in the U.S. are up nearly 70 percent over 1978. Always concerned about Glenview's safety, our Police Department has redoubled its efforts to keep Glenview secure, despite national trends.

THEFT-GUARD has been discussed in this Newsletter since 1972, and repeated as recently as last month. Security literally begins at home. Doors and windows should be *kept locked* except when they are actually being used. An open or unlocked door is an open invitation to burglary, robbery, home invasion - even physical injury. The Police Department offers **FREE SEMINARS FOR HOME-OWNER GROUPS** and **FREE SECURITY INSPECTIONS** of your home or business, at your convenience. (We are happy to report that during the past month there have been an unusually large number of requests for these services, and police have ordered more engraving tools for the **THEFT-GUARD** program.)

LIGHT TIMERS are also being loaned, free of charge, by the Police Department, thanks to the Glenview Jaycees, who have just provided 50 timers for your protection. Just ask at the Police Department's information desk (1215 Waukegan Road) before you leave your house unoccupied for any length of time. The timing device turns lights on and off, making the house look occupied while you are away.

FREE KEY IDENTIFICATION tags, also donated by the Jaycees, have been available at the Police Department since 1979, and often discussed in this Newsletter. Only the Police Department will know the number of the tag issued to you, and should your keys be lost, they can be returned to the Police Department, which will let you know. (No other identification tag should appear on your key chain, for your own protection.)

On Friday and Saturday, June 19 and 20, there will be a Police Department **HOME SECURITY DISPLAY** between 9 a.m. and 5:30 p.m. at the Plaza del Prado Jewel Food Store. Police officers will be on hand to show you what kind of locks are best, and discuss with you other ways of preventing crime at your house.

On Saturday, June 27, the Police Department will have a **BOOTH AT THE COUNTRY FESTIVAL** on Glenview Road from 9 a.m. to 5 p.m., showing **HOME SAFEGUARD MEASURES** and answering questions as to how to protect yourself and your possessions. The Police Department **EXPLORERS**, *CONT.* >

Fire Department offers six-hour

In response to reader interest —

THE BACKGROUND OF THE GASLIGHT CONTROVERSY

Federal legislation is pending regarding the use of outdoor gas lighting after 1981. The Northern Illinois Gas Company is still providing the fuel and whatever repair service is needed for existing outdoor gaslight units.

The background is this: In 1978, Congress passed a law prohibiting new gaslight installations and requiring termination of gas service to most residential outdoor gaslights (with some exceptions for historical reasons) by January 1, 1982.

There is now a bill before Congress that would allow continued use of gaslights installed before the 1978 law was passed. The bill's sponsor, Robert Young (D-MO) says the predicted natural-gas shortage has not materialized, the energy saved would amount to only one-fifth of one percent of total gas usage, and the bureaucratic and litigative costs of discontinuance and enforcement would be prohibitive.

If you have outdoor gaslights, relax — nothing has yet been decided. We will let you know how the gaslight controversy comes out.
